**CONTRIBUTION INFORMATION**

The contribution deducted from each 2018 pay period will be automatically computed by the payroll system. The computation will take into account your ANNUAL contribution request, subtract what you've already contributed (if applicable), then divide by the number of remaining pay periods (assuming twelve months of pay periods). The number of remaining pay periods is determined by when this form is received and processing is completed. (Pay calculations close approximately one week before pay is issued; forms received after a pay period closing are not processed until the following pay period.) You may not reduce your annual amount below what you have contributed to date as refunds are not an option. The annual contribution must be an amount between the minimum and maximum as described below.

The **Minimum Annual Contribution** is the greater of: The plan minimum of \$300; OR your accumulated year-to-date contribution as of your last pay check. **Maximum Annual Contributions** listed below are less the university's contribution. Contribution maximums are dependent on the plan you are enrolled in and the level of coverage. Employees aged 55 or older may also make a \$1,000 additional "catch-up" contribution.

<b>Under age 55:</b>

<b>Age 55 or older (includes \$1,000 catch-up):</b>
