TAX CONSIDERATIONS
Please note that the IRS may consider the Backup Care services provided in a given calendar year as a taxable benefit. Taxable benefits will be reported as follows:
- Adult Care is considered taxable income and will be added to your paycheck at the end of the calendar year.
- Backup Care may be considered a taxable benefit when used in conjunction with a Dependent Care Flexible Spending Account (FSA) for purposes of the IRS limit. The amount of the benefit you received, paid for by Indiana University, will be reported on your Form W-2 in Box 10 as Dependent Care benefits. If the sum of your Backup Care plus your Dependent Care FSA election is greater than $2,500 (for employees who are married but filing separately) or $5,000 (for employees who are either married and filing jointly or single and filing as “Head of Household”), the amount over $2,500/$5,000 will be reported as taxable income.

It is your responsibility to pay any federal, state or local taxes, or other fees or gratuities, connected with use of the program.
